### Script and Tasks

Please set up your account to have 3500 dollars a month in income, distributed every two weeks, 1250 dollars in rent, 500 dollars in insurance, and 500 dollars for food and gas split as you like.

Now please change your pay period to each week. Please alter your savings amount to equal 10000 dollars. Please alter your goal to equal 20000 dollars.

Test conducted with my brothers, Steven, William, and Jonathon.

Improvements/fixes:

The user interface is clunky and jagged.

The text fields lack instruction.

Things not to change:

Text fields are adaptable for integers and doubles.

Alterations can be made easily.
